Q. Here by Megha Seehra is a student persuing my post-graduation degree. For my research work, I would like to know the current correct status of the population of wildlife creatures:

Tigers, Deer, Rhinoceros, Sloth Bear I will be waiting for your response.

**Answer:** The RTI Act is meant to promote public interest based information not for individuals knowledge gain. The applicant is advised to look for reliable internet sources for the status of wild animals or by simply approaching to the authority through email. WII has only involved in estimating only tiger estimation, which is 2967(2461-2591) as per National Tiger estimation exercise 2018. For Deer, Rhinoceros and sloth Bear we do not have any information on population.

**INFORMATION PROVIDED  
UNDER RTI**
