Information Sought (जानकारी मांगी) :	<p>Scientist C position recruitment always atleast considers 35 years of age limit. However, WII has limited it to 31 years for masters and 34 years for PHD candidates. Even the Moefcc considers 35 years of age limit for scientist b and c post. ICFRE and NIHE which are autonomous institutions under ministry also consider 35 years age limit for scientist B and C. Please justify why the age criteria is limited in this institution. Researchers work very hard to get these positions and if they are not allowed to appear for these posts, there career is surely on stake. Please justify why age limit is narrowed down to 31 in case of masters. Only few students who fall under this age limit will apply for these posts.</p>
