Information Sought :	<p>The upper age limit for Scientist C according to MoEFCC is 35 years for the candidates with Ph. D. On what basis the upper age limit is given as 34?</p> <p>The advertisement number is of 2022, why it is published in the year 2023? and this is affecting the age criteria for many candidates. Due to this many of the candidates are losing their age criteria. What would be your justification on this? Since the advertisement belong to the year 2022, will the candidates who are just crossed or at the border of this age criterion in the year 2023 will be considered for the interview?</p> <p>Is this recruitment is biased for any internal candidates who are working at present?</p>
